

Stan Dawes Fencing Supply & Install BASTION SAFE 'T'

SPECIFICATION

Bastion Safe 'T' panels are manufactured with a rolled top and bottom edge resulting in a very strong, stable, and safe fence.

The mesh is 50mm x 150mm, fully welded at every intersection. The width of the Safe 'T' panels suits post centres of approx. 3000mm and the following heights are available as standard:-

Type	Panel Height
SAFE T 900	0.9mtr
SAFE T 1200	1.2mtr
SAFE T 1500	1.5mtr
SAFE T 1800	1.8mtr

The Hexaclip RHS posts are manufactured from 60x40mm steel section and have a unique and patented fixing method specially designed by to give maximum possible resistance to vandalism and attempts to force entry. The welded mesh panels are located on the face of the post with two piece clips fixed with 'anti-tamper' bolts. These clips firmly clamp the end vertical wires, providing an extremely secure fixing.

The Professional Choice
